MOLDING 360-ADVANCED INJECTION MOLDING at SHIBAURA MACHINE TECHNICAL CENTER

This is an intensive, 3-day injection molding processing course designed to enhance skills and provide the tools required to maximize quality, productivity, and profitability. Students will be taught to develop a process through use of scientific molding concepts. Classroom learning is combined with hands-on learning at the machine. This is an advanced level course and students are expected to already have a basic understanding of the injection molding process.

CLASS LOCATION

SHIBAURA MACHINE TECHNICAL CENTER
